

Front, Loco shed. © NRM 2008

Back, loco shed, © NRM 2008

## **INSTRUCTIONS:**

1. Print off the kit
2. Neatly cut the kit out, all big blue areas must be cut out.
3. Attach Wall 1 to the side 1 of the front
4. Attach Wall 2 to the side 2 of the front
5. Attach the back
6. At the moment the structure is flimsy, so be careful!
7. Stick interior in
8. Glue the roof brackets on
9. Cut roof out and if desired glue to brackets
10. Put Bargeboards and Smoke Extractors on
11. Other details you may wish to add include a workshop on the side. A kit is currently in development.

The best glue to use is "Rocket Card Glue" as this eliminates discolouration to the print. This kit was made by Jack Woodhams for New Railway Modellers ONLY. It is prohibited to use this kit on another site without prior consent from NRM, ([info@newrailwaymodellers.co.uk](mailto:info@newrailwaymodellers.co.uk))
